DETAILING SERVICES

As with any “detail-oriented” endeavour, knowing where to start and actually setting the time aside to thoroughly clean every crevice of an automobile is oftentimes the hardest part.

Which is precisely why we’re here to help.

Interior upholstery

Ceramic Coating

Paint Work

1. Exterior Detailing - Preparation

Detailing the vehicle's exterior entails; Cleaning the exterior, Protecting the exterior, Washing, - cleaning with quality products, Decontamination, Oil Residue Removal, Claying and then Buffing and Polishing.

Buffing and Polishing

Saloon Car
KSH 20,000

Cross Overs and SUVs
KSH 26,000

Paintwork, Protect and Shine.

Revive exterior paintwork with our deep-cleaning process. Hot steam vapor effectively cleans without harsh chemicals or abrasive materials, ensuring no damage on the clear coat or paint layer. Instead, we safely restore car's shine and add a protective wax treatment as per the package.

Bug Removal.

Dried-on bugs and grime don't get the better of us. We use water-saving steam techniques to lift away stubborn contaminants from your car exterior. Moreover, the high temperature of steam speeds up the cleaning process. Quicker turnaround time for you!

Wheel Cleaning.

We designed our steam cleaners with various nozzles and attachments to allow for precision detailing. This is particularly useful when cleaning hard-to-reach places on wheels, tires, and wheel wells.

Water Saving.

You don't need to worry about water wastage when we wash your car exterior. Steam cleaning uses minimal amount of water compared to traditional methods. So, you can schedule a guilt-free green clean and enjoy a beautiful-looking car.

Glass Cleaning.

We get your windshield, windows, and mirrors brilliantly clean. Our gentle steam cleaning methods remove fingerprints, smudges, bird droppings, etching, water spots and road grime from exterior glass. Additionally, we use lint-free microfiber cloths to prevent streaks and waterspots.

Streak-free windows not only look good, but also improve visibility for safer driving.

Longer-Lasting Results.

Unlike some traditional cleaning products that may leave residue on the paint surface, steam cleaning doesn't leave residue behind. Also, your car exterior is less likely to attract dirt immediately after cleaning.

Paint Correction.

Paint correction removes any swirls, blemishes and scratches on the paintwork.

It involves the use of machine polishers and a range of different polishes and graded pads.

PPF.

PPF (Paint Protection Film) is a transparent and durable film applied to the painted surfaces of a car to protect it from various environmental hazards.

Why you should install PPF on your car:

- Scratch Resistance
- Stone Chip Protection
- UV Protection
- Chemical Resistance
- Easy Maintenance
- Long-lasting

3. Interior Detailing - Starting from **KSH 25,000**

a. Interior Cleaning.

Interior car detailing goes beyond a quick vacuuming or wiping of surfaces. It involves a thorough cleaning and restoration of your car's interior, addressing every nook and cranny to ensure a pristine and comfortable environment. From removing dirt and stains to treating upholstery and conditioning leather, interior detailing helps maintain the appearance and value of your car.

1. Preparing the car for interior cleaning
2. Treating Leather Surfaces
3. Cleaning and Conditioning the Dashboard and Panels
4. Polishing and Protecting the Interior Surfaces
5. Steam Cleaning Highlights
6. Vacuum Interior
 - We vacuum the interior to remove dirt, dust, and debris. Areas include the seats, carpets, floor mats, and the trunk.
 - Our tools and accessories ensure we access hard-to-reach places. Then we do a complete interior wipe down
7. Clean and Sanitize of upholstery, and other components.

Steam reaches temperatures over 200°F (93°C). This hot vapor dissolves dirt and grime while sanitizing the interior dash, console, and other high-touch surfaces. We don't just wipe down your car interior; we eliminate germs and bacteria, too.

8. Stain Removal

Steam cleaning removes dirt and stubborn stains from your car seats, floor, headliner, door panels, and other surfaces covered in fabric or material. You'll love the difference steam cleaning makes.

9. Odor Removal

- Say goodbye to odors.
- Bad smells from stains, spills or leftover food are never nice in an enclosed space.
- Our specialty upholstery cleaning leaves your car interior smelling fresh. We also clean the air and ventilation system to remove dust, pollen, mold, and bacteria.

10. Protective Treatments

After deep cleaning, our trained auto detailers apply interior plastic conditioner. This is the finishing touch, protects and restores the look of your car interior.

**QUICK
PRO
TIP**

No risk to scratches or swirl marks that occur at automatic car washes.

- Odor removal
- Protects paintwork
- May increase the resale value of vehicle
- Healthier environment for driver and passengers
- Removes stains and other imperfections from seats and carpets

b. Full Detailing Service // KSH 36,000

Covers all of the above categories, plus exterior panel polishing. The job includes a complete interior cleaning to remove stains, odors, and dirt from all surfaces. The exterior is polished to remove light swirls and restore gloss before waxing.

Interior Upholstery.

Imagine your car with a luxurious, premium leather interior. Maybe you've wanted one but thought it was really expensive at the dealership, Or you didn't know that you could easily upgrade your fabric or worn out leather seats on the car you have now.

Whatever your dream, We can deliver it, adding luxury, comfort and style to your vehicle at an affordable price.

Scope of works Include;

- Headliner, roof lining repair and replacement including side pillars
- Seat upholstery
- Console, arm rest
- Dash board repairs and leather enclosure
- Door panel upholstery
- Floor recarpeting

Interior leather upholstery – Subject to prior physical assessment first before quotations issuance.

Leather Samples

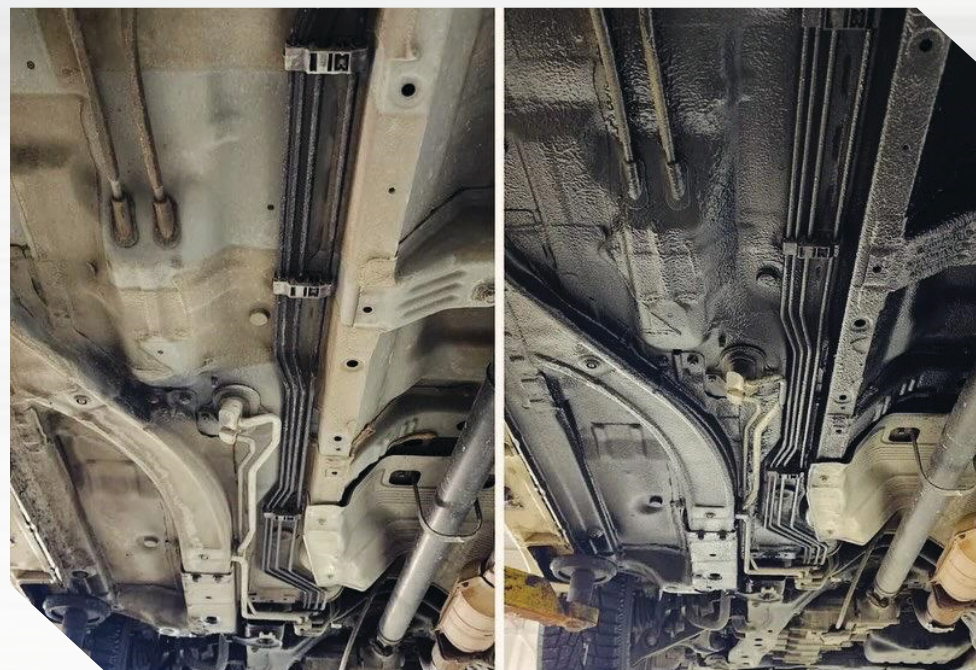

Under Coating and Rust Proofing.

Undercoating is recommended to be applied when the vehicle is brand new to avoid trapping or sealing any corrosion and dirt.

Car undercoating can be applied to older vehicles as we would thoroughly clean and prep the undercarriage before application.
